**SEE A 30%
PERFORMANCE
INCREASE WITHIN
THE FIRST 60 DAYS***

**Results may vary.*

Some of our business units have been able to reduce their fleet by one machine and in some cases as many as two. With each machine costing more than \$300,000 that turns into a significant return by using Razor Tracking.

Tom L. - Fortune 100 Company

TRACKING DEVICES - THE FLEET TRACKING DIFFERENCE

PREMIER

Capable of real-time tracking, reporting engine data, and the Premier tracker can be used to implement the Federal Motor Carrier Safety Administration (FMCSA) Hours of Service (HOS) requirements and e-Log tracking via bluetooth. *ELD only units are available upon request

- No Contract Monthly Subscription*
- 6-Month Seasonal Suspension Available
- Cannot Suspend ELD Service

PRO

The Pro tracker is used for anything with an engine you want to track, such as tractors, trucks, utility vehicles, or OTR vehicles without a diagnostic port. It provides accurate real-time information every 15-25 seconds.

- No Contract Monthly Subscription*
- 6-Month Season Suspension Available

*MONTHLY SUBSCRIPTION INCLUDES: Maintaining systems/servers, GPS/cell signal, training, upgrades to the systems, and more.

ASSET TRACKING DEVICES

SOLAR HYBRID

The Solar Hybrid Tracker has a rechargeable battery, power harness, internal antenna and magnetic cradle for easy installation. It's ideal for trailers, pull behinds, NH3 bars, nurse trailers and other assets. When the Solar Hybrid tracker is stationary it pings twice a day, in motion every five minutes, and if it's connected to power you will be able to watch it ping in real-time every 20-30 seconds.

- No Contract Monthly Subscription*
- 6-Month Season Suspension Available

SATELLITE

Track assets in locations too challenging for other GPS devices. The Satellite Tracker's unique rugged metal bezel and hermetically-sealed construction provides durable protection from extreme temperatures, forces and chemicals. It's not only the World's most rugged device, but also the safest, and has achieved the highest IECEx/ATEX Zone 0 rating.

- Requires an Activation Fee
- Requires a 3-Year Agreement
- Monthly Subscription*

*MONTHLY SUBSCRIPTION INCLUDES: Maintaining systems/servers, GPS/cell signal, training, upgrades to the systems, and more.

DASH CAMERAS

Razor Tracking has the world's most advanced incident camera with powerful LTE video transmission, built-in tracking and telematics data. Developed to provide evidence of events leading up to and during a road traffic incident, the cameras provide instant notifications & videos of incidents in less than a minute.

- 1-8 Camera Units Available
- Various Telematics Providers
- No Contract Monthly Subscription

EVENT ALERTS

- Driver Using Cell Phone
- Forward Collision Warning
- Harsh Turns
- Harsh Brakes
- No Seat Belt
- Following Distance Warning
- Panic Button
- Manual Request
- Distracted Driver
- Lane Departure
- Quick Accelerations
- Vehicle Shock

BENEFITS & FEATURES

- HD 150° Wide-Angle Lens on Primary Camera
- Dual Record Mode (Continuous + Event)
- Live Feed Starts at Vehicle Ignition
- Built-In Speaker for Audible Driver Alerting
- Up to 256 GB of Local Storage (SD Card)
- Built in GPS
- Plug-and-Play Installation
- Built-In G-Shock & Gyro Sensors
- Request Historical HD Video Playback
- Advanced Driver Coaching & Reporting

RIDE SHOTGUN FROM ANYWHERE

We have increased our efficiencies
by over 20% with Razor Tracking.
Management, dispatch, everything has
improved dramatically.

Blake K. - Construction Company

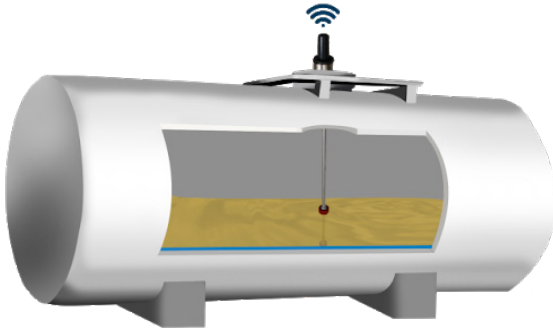

ADVANCED INDUSTRIAL ASSETS & SYSTEM MONITORING

Tank monitors provide deep insight into where operational friction is occurring, helping you drive efficiencies, minimize capital costs, and prevent product loss.

“ It is a convenience for communicating with our customers on what time they can expect us at their farm and making sure our drivers are going to the right location.

Mike W. - Fortune 100 Company ”

TANK MONITORS

PLEASE CALL FOR MORE INFORMATION

With contracts on the line, don't base fill schedules on guesswork or outdated algorithms. See exactly what is in each of your customers' tanks. Keep an eye on ISO containers and other in-transit assets anywhere in the world. Plus, alerts to changes across parameters like pressure, temperature, vibration, and GPS location. Immediately reduce costs by increasing average drop size, eliminating unnecessary trips, and optimizing when and where deliveries need to be made.

WHAT DO THEY MONITOR?

- | | | | |
|-----------|--------------|------------------|------------------|
| • Gas | • Helium | • Water | • Nitrous Oxide |
| • Propane | • Nitrogen | • Oxygen | • Grains |
| • Oil | • Lubricants | • Carbon Dioxide | • Waste Products |
| • Diesel | • Chemicals | • Argon | • Temperature |

BENEFITS & FEATURES

- | | |
|--|---|
| • Customer inventory visibility | • Usage rates analytics |
| • Route optimization to reduce labor & miles | • Automatic reorder point notifications |
| • Days-until-empty forecasting | • Customizable reporting |

OUR 60-DAY PROMISE

If you do not see the benefits of our software in your operation within 60 days, we offer a money-back guarantee on all new units purchased.*

*Offer for new clients only. Units must be returned within 30 days notice of termination of service. All units purchased must be returned in new, or like-new condition. Units must include all wiring harnesses, antennas, or additional hardware. Once all units are returned to our facility, you will receive a credit. After 60 days all sales are final.

“ With Razor Tracking’s capabilities, we were able to serve 12,000 more acres and reduce our fuel expense by 10%. I don’t know how we got by without Razor Tracking.

Matt L. - Fortune 100 Company ”

SOFTWARE AS A SERVICE | MOBILE APP | API INTEGRATIONS

NO COST BONUSES FOR YOU!

6 MONTHS SEASONAL SUSPENSION

We work with you and for you. So when you are off, we should be too.*

100% FREE TRAINING

Razor Tracking is one of the most user-friendly platforms to use out there today, but just in case you want some hands-on-training, we will be there with you, every step of the way.

UNLIMITED NUMBER OF USERS

We offer an unlimited number of users within the system, so you can make sure that your operations team is on board for improvement.

VEHICLE HISTORY RECORDS

Review up to the last 18 months of your fleet history. After 18 months, we move your data to a stored server and keep it for you forever, because it's your data.

60-DAY PROMISE

If you don't see the benefits of our software in your operation within 60-days, we offer a money-back guarantee on all new units purchased.**

* Seasonal suspension does not include all devices and services.

** Offer for new clients only. Units must be returned within 30 days notice of termination of service. All units purchased must be returned in new, or like-new condition. Units must include all wiring harnesses, antennas, or additional hardware. Once all units are returned to our facility, you will receive a credit. After 60 days all sales are final.
