

Aviation Fuel Tank Monitoring

 **TankScan.**

The power of data. Optimized.

Jet into the Automated Fuel Inventory Management System with TankScan®.

Lower measurement costs

- Automated systems eliminate labor and other costs associated with manual tank measurement
- Replace expensive manual labor with cost-effective monthly data access fees

Improve inventory management

- Know inventory levels at anytime from a computer, tablet or smartphone
- Alerts will warn when tank levels get too high or too low via email or text message
- Reporting features allows users to track usage trends

Easy to install, versatile solution

- Monitors can connect with Ethernet, Wi-Fi or cellular gateways
- Gateways can monitor up to 10 tanks each
- Remote battery packs available for easy maintenance

ATEK Intelligence Platform (AIP) web-based portal

- Can be accessed from any Internet-connected computer
- Scales from 1 to over 100,000 tanks
- User-friendly dashboard displays accurate measurements across all tanks
- Users can view multiple tanks to simplify site monitoring
- Email alerts notify when preset levels are reached
- Multiple users can be authorized to access various levels of data
- Analyze tank data with timely reports
